Aubs
MAINE COONS

Hi!

I want to briefly explain the importance of activating your kitten's included pet insurance.

Your kitten comes with 30 days of complimentary Trupanion coverage, and per the contract, this insurance **must be activated within twenty-four (24) hours of transfer**, with a **screenshot or confirmation of activation provided within forty-eight (48) hours**.

You also have the option to use a different insurance company of your choosing.

Veterinary care can vary widely in cost depending on the diagnosis, testing required, and level of care needed. Some conditions may involve only a basic exam, while others can require diagnostics, imaging, hospitalization, or specialty care. Trupanion and most other companies offers different coverage options and deductible levels, allowing families to choose a plan and price point that best fits their budget, while still providing meaningful protection.

This requirement exists to ensure that, if an unforeseen medical issue arises during the transition period, your kitten can receive immediate and appropriate care without financial barriers. It also protects both parties by ensuring clear documentation and continuity of care.

As outlined in the contract:

- Timely activation of pet insurance is a condition of all health warranties
- Failure to activate coverage or provide proof within the required timeframe voids all warranties and any return, refund, or replacement consideration

Please activate the policy promptly after transfer and send confirmation once completed. If you have any questions or need help with activation, I'm happy to assist.

Thank you for your cooperation and for helping ensure the best possible start for your kitten.

Warmly,
Aubre
